

# MINES AND MINING STOCKS FINANCIAL AND COMMERCIAL

TINTIC MINES WILL BE MERGED

Old Colony and Manhattan Salt Laker Rounds Up the Big Cop-Companies in the Deal.

PROF. S. F. EMMONS ON IRON

GRAND CENTRAL DECIDES TO PASS AUGUST DIVIDEND.

The Old Colony and Eureka and Manhattan Mining companies have taken the initiatory steps looking to a consolidation of their properties at Tintic, and there is little doubt that the share- 40 holders of each will ratify the agreement which the directors of the com-panies have made subject to their ap-proval. The stockholders of the former will take action on the matter Sept. 16th, and the Manhattan com-

day following.

The Old Colony company is capitalized for 500,000 shares, and the Manhattan for 1,000,000. It is proposed to form a new company to absorb the old ones, with a capital stock of 500,000 shares. Old Colony shareholders are to receive 200,000 shares for their 500,000 in the old company, while 100,000 is to be apportioned to the Manhattan, the remaining 200,000 shares to receive the Manhattan the remaining the Russ the level. That will give 115 feet additional stopping ground.

In addition to the Blue Jacket, the company is working the Queen and Calumet of the same group, and is taking out or refrom both.

A contract has been made with the Ladd Metals company for the product of the mines. It is expected the smeltent the remaining the received the same group, and is taking out or refrom both.

A contract has been made with the Ladd Metals company for the product of the same group, and is taking out or refrom both.

A contract has been made with the Ladd Metals company for the product of the same group, and is taking out or refrom both.

A to receive 200,000 shares for their 500,000 in the old company, while 100,000 is to be apportioned to the Manhattan, the remaining 200,000 shares to go into the treasury. The properties of the companies lie side by side, and the idea of throwing them into one company.

of throwing them into one company is to make their development without the expense incident to maintaining two managements and separate workings.

Combined, the groups make a very large block of ground lying south of and adjoining the Lower Mammoth and Black Jack companies' territory. A great deal of work has been done at both of the properties, which it is designed to combine, and while more or less ore has been uncovered, developments have not reached the stead. or less ore has been uncovered, developments have not reached the stage where either has been brought into the producing class. Enough has been done, however, to lead to the conclusion that results should follow systematic work, and there is reason to believe that everybody will be benefited by the plan outlined.

Sometimes of the mining belt there as lying in a great horse-shoe, the veins being contacts between porphyry and diorite. The mines are all free from litigation except the iron Dyke, and the latter is in a fair way to get out of the courts. The litigation of past years has seriously interfered with the development in the district.

PROF. EMMONS ON IRON.

Says Development in Iron County is Not Sufficient to Supply Data.

After a day spent at Bingham, Prof. S. F. Emmons, directing head of the government geological survey, was in the city again yesterday. This evening, in company with officials of the Newhouse Mines & Smelters corpora-tion, he will make a trip to Beaver county and size up conditions as they

His attention being called to the

neers, the last one, I believe being No. 225, by Engineer C. K. Leith."

### GRAND CENTRAL DIVIDEND Directors Decide to Pass It and Use

Money For New Work.

At their monthly meeting on Wednesday the directors of the Grand Central company decided not to pay a dividend this month. What with taken, it was deemed advisable not to

The stock of the Grand Central company is held largely at home, so it is not believed that the passing of the dividend will materially lower the price. Here such things are considered from a reasonable standpoint and a better knowledge of what real mindra is then can be expected from page 1990. ing is than can be expected from peo-ple thousands of miles away who have hever seen a mine and know nothing

has been making preparations to go much deeper. The air compressor plant has had its capacity doubled, the plant has had its capacity doubled, the hoisting machinery has been placed in first-class trim and everything made ship-shape for the new work in hand. It is presumed that during the period of new development the output of the mine will be somewhat decreased, as sinking the shaft, in particular, is bound to interfere with ore-raising. Had the stock of the company been held in the east the announcement that dividends had been temporally suspended would most likely have resulted in the selling value of the mine having been decreased anywhere from 50

ing been decreased anywhere from 50 to 75 per cent, as it would have been taken as conclusive evidence that the mine had petered out.

### VISITORS TO COLUMBUS CON. Management Pleased at Interest Ta ken by Shareholders.

Manager Tony Jacobson of the Columbus Consolidated is having not a little of his time taken up these days in conducting visiting stockholders over and through the property at Alta. He counts the task as a pleasant one, as he feels that shareholders who take interest enough in their investments t inspect the mines and satisfy them selves as to their value are worth have

Yesterday morning Rev. Dr. John M Boyd, wife and two sons, who are on their way back to Chicago from a so-journ on the coast, called on Mr. Jacobson, and said they would like to visit the property. Being stockholders in the corporation, Mr. Jacobson at once arranged to take them to camp, the party leaving during the afternoon. the party leaving during the afternoon. The return trip will be made today in time for the visitors to take the after-

on train for the east. Next week quite a number of Chi-cago shareholders, including several cago snareholders, including several ladies who are now sight-seeing in Colorado, will be here to visit the mine, and Manager Jacobson is making preparations to treat them right.

"I like to see them come," said Mr. Jacobson. "If people who invest in mines would take the trouble to learn for themselves what they were getting for their money it would not be long till the mining industry would o be looked upon with suspicion

about a mine after they had visited it, but most of them could tell whether there was ore in the property or not,

SEVEN DEVILS BOOMING.

per-Gold Region of Idaho. Colonel George W. E. Donsey, the well known mining operator and promoter who still has large interests in Utah, but who is at present directing his energies to the opening up of the mines at Pearl, Idaho, has just been making a round traff the Sovern David.

naking a round-up of the Seven Devils ountry, in which a company of his is 180 operating. According to the coise Statesman he found the discrict on the boom.

The Blue Jacket mine, he says, is opening up remarkably. This is one of the group of claims in which the colonel is interested. They are working in five stopes. In one of those one man sacked forty-eight sacks of ore in a single shift, this ore averaging over 40 per cent in copper, The ore in the main is bornite, and much of it runs as high as 60 per cent.

New Yor!

as high as 60 per cent.

The company has started the pump and will unwater the lower level, 115 feet below the tunnel level. There has

been little or no ore extracted from the level. That will give 115 feet addi-

k of a technical nature. Surface ditions are not always a true guide two must be able to see underlying a well if reliable reports are underlying as well if reliable reports are

### HEAVY BUYING IN WALL STREET

Government Crop Report the Dominant Influence.

STRENGTH NOT MAINTAINED

CLOSE WAS IRREGULAR AND SOMEWHAT HIGHER.

pretation of the government crop report was the dominant influence of sentiment. The confidence with which the buying of stocks was conducted was materially impaired later in the day. The wild upshoot of prices in the wheat market was a serious unsettlement to the optimistic views deducted from the reading of the government crop report. The strength of the corn market also caused grave misgivings over the seeming promise of a record crop of that cereal held out by the government crop report. But besides these influences it must be borne in mind that an enormous amount of profit-taking was accomplished during the active and rising market for the morning. This had the effect of distributing stocks from stronger to weaker hands and of diminishing the motives for supporting the market by the powerful speculative operators who had been reducing their holdings. ion of the government crop repor

developed a suspicion that conditions in that trade are not as tranquil as have been reported in the maintenance of agreements for sustaining prices. United States Steel preferred showed a very slight response at any time to the strength of the market and its late drop helped much to unsettle the market. The engagement of gold for shipment to London had rather less than its usual sentimental influence against the market, as the week's receipts of gold here on account of Japanese and Australian arrivals at San Francisco have been liberal and the morning's cables reported another shipment of \$1,750,000 on the way from Australia.

The stock market during the morning had every appearance of important hundred.

The Columbus Consolidated company marketed a fifty-ton lot of ore yesterday.

The Columbus Consolidated company marketed a fifty-ton lot of ore yesterday.

M. P. Gilbert, the well known mining man, is over from Los Angeles on one of his periodical business trips.

Manager Rood Says More Ore is Now Exposed Than Ever.

Manager C. L. Rood, who came down from a several days' trip to the Ontario and Daly Wednesday evening stated yesterday that the new workings in the south end of Daly ground were looking very good, indeed. More ore is now exposed than ever, and everything seems to point to most sub-

No. 1 foundry northern is quoted at 14.00@14.50; No. 2 foundry northern, 13.45 (14.66). No. 1 foundry northern and No. 1 114.00; No. 1 foundry southern and No. 1 oundry southern soft, 13.50@13.75.

Coffee and Sugar.

New York, Aug. 11—Coffee—Spot steady; mild, firm. Coffee futures opened firm at an advance of 56:16 points on a centinued demand from Europe and commission house receipts were liberal, however, and predictions for a still heavier movement were in circulation, so that longs having profits turned sellers at the advance and in the afternoon the market sagged off, but recovered the loss in the late trading on rumors of buillish private cables from Brazil. The close was firm at a gain of 56:16 points. Sales were 81.759 hags, including: September, 6.406.65, October, 6.59; November, 6.60. December, 6.566.65; January, 6.806.85; March, 7.00; May, 7.1567.25; July, 7.3067.35.

Sugar-Raw, strong; refined, firm.

Treasury Statement. Washington, Aug. 11.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balance, \$151,651,452; gold, \$46,917,445.
